Overview

What is a mobile power station?

The Mobile Power Station is a 12kW portable wind turbine that delivers low-cost, clean energy, when and where you need it. The wind turbine fits in a 20’ shipping container, is towable by an ordinary vehicle and sets up in one hour without the need for site improvements or lengthy wind studies.

What is the wind energy industry?

The wind energy sector in the US is a dynamic and rapidly evolving industry focused on harnessing wind power for clean electricity generation. Comprising manufacturers, developers, and service providers, these companies work tirelessly to construct and maintain wind farms, design innovative turbine technologies, and provide energy solutions.

What is a containerized mobile substation?

Containerized mobile substations are sheltered and address applications in challenging environmental conditions including areas with high pollution, high humidity, extreme temperatures or sand storms. Containers are easy to transport and fast to install, by reducing foundation works as well as installation and commissioning effort on site.

Who is C&C wind energy services?

C&C Wind Energy Services, based in Dundalk, Maryland, is a family-owned company that has been operational since 2016. With a workforce of 11 to 50 employees, they specialize in providing comprehensive services for wind turbine projects.

Where can a portable power container be used?

The MOBIPOWER portable power container can be used virtually anywhere on the planet and will produce and store all the power you will need.

Can a containerized Solar System be installed off-grid?

Off-Grid Installer have the answer with a containerized solar system from 3 kw up wards. Systems are fitted in new fully fitted containers either 20 or 40 foot depending on the size required.
