24V household high power inverter

GRADE A BATTERY

LiFePO₄ battery will not burn when overcharged over discharged, overcurrent or short circuit and can withstand high temperatures without decomposition.

Overview

With 24V DC input and 120/240V AC split-phase pure sine wave output, it delivers up to 97% line mode efficiency and 88% battery mode efficiency. 24V split phase inverter includes a 90A battery charger, 30A transfer switch, LCD display, and battery temperature sensor, making it perfect for powering household appliances, RVs, boats, or camping setups.
