266508 4v lithium battery pack

Overview

What is a lithium ion rechargeable battery 26650?

Li-Ion Rechargeable Battery 26650 with a larger diameter and length is a high performance, high power & high capacity designed for high drain applications by the most trusted lithium-ion battery company. Li-ion rechargeable battery 26650 is new & upgraded from the 18650 battery, and it's excellent for making 26650 batteries in series and parallel.

Which type of battery is used for a 26650?

These are Lithium Ion (Li-Ion) 3.7V 26650 Batteries.

What is a Lithium Werks 26650 battery?

Our high-performance, power cells can be used in fully customizable solutions for multiple market needs. Lithium Werks' 26650 cells are best for Power.Safety.Life.™ applications. They deliver very high power due to their use of patented Nanophosphate® battery technology.

Are Lithium Werks 26650 cells safe?

Based on lithium iron phosphate chemistry (LiFePO₄), the cells are inherently safe over a wide range of temperatures and conditions. Whether the application requires outstanding cycle life or stable float reliability, the Lithium Werks' 26650 cells are suitable for a wide variety of power, pulse, or stand-by applications.
