# 285 solar Panel Specifications

## Overview

---

A 285 watt solar panel is a photovoltaic module capable of producing 285 watts of electrical power under Standard Test Conditions (STC). These conditions include 1,000 watts per square meter of solar irradiance, a cell temperature of 25°C (77°F), and an air mass of 1.5.

A 285 watt solar panel is a photovoltaic module capable of producing 285 watts of electrical power under Standard Test Conditions (STC). These conditions include 1,000 watts per square meter of solar irradiance, a cell temperature of 25°C (77°F), and an air mass of 1.5.

Legacy Technology with Niche Value: While 285W panels are largely obsolete for new installations in 2025, they remain valuable for system expansions, replacements, and specialized applications like RV/marine systems where their proven reliability and manageable size provide distinct advantages.

REC Solar's TwinPeak REC285TP2 solar panels are premium solar modules with superior performance. The REC TwinPeak 2 takes the power output of 60-cell multicrystalline panels to groundbreaking new heights with its twin panel design. This reliable solar panel is ideal for homes or businesses.

SolarWorld only delivers modules that have greater than or equal to the nameplate rated power. SolarWorld guarantees a maximum performance digression of 0.7% p.a. in the course of 25 years, a significant added value compared to the two-phase warranties common in the industry, along with our.

The MSM285S-1 156 solar panel by Magnizon is a high-quality, reliable [. ] Too many choices of suppliers and products?

Let our team find suppliers for you, for free! The SDM-260-300 is a highly efficient solar module designed by Sunday [. ] The HS-M-60-PID 5BB mono solar module by Hershey Solar.

Among the various solar panels available, the 285 watt solar panel stands out as an efficient, versatile, and highly practical choice for both residential and

commercial applications. This guide dives deep into everything you need to know about the 285 watt solar panel, including its benefits.

Solar World SunModule® Plus Solar panel has 60-monocrystalline cell that converts the highest amount of solar energy into electricity. It has reverse current rating of 25-Amps and voltage rating of 1000-Volts. Solar panel has power rating of 285-Watts at STC and 211.1-Watts at NOCT. Solar panel.
