ASEAN Energy Storage Power Company

Overview

What is the ASEAN Energy Centre?

The Centre accelerates the integration of energy strategies within ASEAN by providing relevant information and expertise to ensure the necessary energy policies and programmes are in harmony with the economic growth and the environmental sustainability of the region.

Why does Southeast Asia need flexible energy storage solutions?

Southeast Asia's exponential growth in electricity demand, averaging over 6% annually over the past two decades, has created an urgent need for reliable and flexible energy storage solutions. This surge in demand is primarily driven by increasing ownership of household appliances and rising consumption of goods and services across the region.

Will Singapore achieve 200 MW of energy storage capacity by 2025?

Singapore's ambitious target of deploying 200 MW of energy storage capacity by 2025 exemplifies the region's commitment to embracing advanced storage technologies. The market is witnessing a surge in large-scale energy storage projects and strategic collaborations.
