The APG is a regional power interconnection initiative aiming to connect the electricity infrastructure of the member states of the .

What is the ASEAN Power Grid?

The ASEAN Power Grid is more than an infrastructure plan; it's a regional cooperation framework that could transform how Southeast Asia powers its growth. With strong political will, innovative financing, and aligned regulations, APG can catalyze the energy transition, climate resilience, and economic competitiveness.

What is the ASEAN Power Grid Advancement Programme (APG-AP)?

The ASEAN Power Grid Advancement Programme (APG-AP) is a strategic initiative designed to enhance regional energy security, affordability, and sustainability by advancing multilateral power trade and strengthening the APG.

Can ADB commit 10 billion dollars to the ASEAN Power Grid?

In a deep dive workshop, ADB representative Kathy Marsh noted, “ADB can readily commit 10 billion dollars towards the ASEAN Power Grid to speed up cross-border connections, national grid projects, and renewable energy initiatives.”.

Does the ASEAN power grid need financing?

The realization of the ASEAN Power Grid faces challenges from the gaps in infrastructure and its corresponding investment requirements. Our results are able to quantify such country-specific gaps and highlight the heterogeneity of financing needs across ASEAN for the realization of the ASEAN Power Grid.

How is ASEAN viewed as a power system?

Each ASEAN country is viewed as a power system with country-specific

electricity demand and emission targets required by its NDC.

When did ASEAN start regulating electricity?

In 1981, the first official discussions on the state of electricity grids within ASEAN began. This resulted in the creation of the "Heads of ASEAN Power Utilities/Authorities" group, otherwise known as HAPUA.
