Are there subsidies for exporting energy storage products

Overview

What are the different types of energy storage incentives?

In addition, there are other types of energy storage incentives that have been tried. For example, storage may be added to existing renewable programs, such as solar incentive programs, or be made eligible for market-based programs such as utility renewable portfolio standards (RPS).

How much do state energy storage incentives cost?

- At the time of this report, average residential/small commercial energy storage incentive rates for the state programs examined ranged from \$350/kWh to \$1,333.33/kWh, with a mean rate of \$805/kWh.
- State policymakers should consider combined up-front and performance-based incentives.

Are state incentives necessary to increase distributed storage deployment?

- Despite all these variables, numerous studies as well as experience have shown that until energy markets mature, battery prices fall, and currently non-monetizable energy storage services become monetizable, state incentives are a necessary and critical key to increasing distributed storage deployment.

What are energy storage incentive programs?

The energy storage incentive programs considered in this report fall into three categories: 1. Rebates (payment for installing storage) 2. Performance incentives (payment for storage services provided to a utility or grid operator) 3.

What are examples of energy storage equity provisions?

Examples of energy storage equity provisions include the following: • Justice40 commitment/Carve-out. Typically, a carve-out is necessary to ensure historically overburdened communities and income-eligible customers can participate in energy storage incentive programs.

Do energy storage developers offer financing?

While many energy storage developers offer financing, it can be helpful for the state to provide public financing options that can be marketed to income-qualified customers and historically underserved communities (for example, low- or no-interest loans that do not require high credit scores to qualify).
