Argentina solar container exports

Overview

How much solar energy does Argentina produce in 2021?

With solar energy generation in Argentina increasing by more than 100-fold in just five years, the country generated approximately 2.19 TWh of solar energy in 2021, up from 16.4 GWh in 2017, representing a 63% increase in solar energy production in Argentina.

Which solar projects are coming to Argentina in 2022?

For instance, in February 2022, the state-owned oil and gas utility firm, YPF, started constructing the 300 MW Parque Solar Zonda project. The country has several solar PV projects in the pipeline and planning stages, which are expected to significantly boost the growth of the solar energy market in Argentina.

Why is solar technology becoming more accessible in Argentina?

This cost reduction has made solar technology, especially solar PV technology, more accessible in Argentina, with a total solar PV installed capacity of 1,060 MW in 2021. The growing electricity demand is also a major factor driving the market's growth.

How much does Argentina export in 2024?

In macroeconomic terms, Argentina's total exported goods represent 5.9% of its overall Gross Domestic Product for 2024 (\$1.354 trillion valued in Purchasing Power Parity US dollars). That 5.9% for exports to overall GDP in PPP for 2024 compares to 5.5% for 2023.

Is solar power a viable option in Argentina?

More than half of Argentina's territory receives annual average sunlight over 3.5 kWh/m², making solar PV a technically viable option to match the higher electricity demand. In 2021, solar power accounted for more than 12.7% of total renewable power in Argentina, with the majority being generated

through solar PV.

When will a solar farm be commissioned in Argentina?

In December 2021, Argentine power producer Genneia SA started the construction of the 80 MW Sierras de Ullum solar farm. The USD 60-million project is expected to be commissioned by the end of 2022. Similarly, in February 2022, YPF Luz started the construction of the 100-MW Zonda solar farm project in San Juan.
