# Austria large energy storage vehicle manufacturer

## Overview

---

ADS-TEC Energy, a global leader in battery-based energy storage and fast-charging systems, has officially expanded into Austria by establishing ads-tec Energy Austria GmbH. Who is Rag Austria AG?

RAG Austria AG is Austria's largest energy storage company, and one of Europe's leading gas storage facility operators. Our business focus is market driven storage, conversion and conditioning of energy in gaseous forms. We also develop leading edge energy technologies related to green gas like hydrogen that partner renewables.

Is green hydrogen a central component of the Austrian energy transition?

Through this cooperation with RAG Austria, ENERGIEALLIANZ Austria is strengthening its commitment to green hydrogen as a central component of the Austrian energy transition. Press release | 01 July 2025.

How will energieallianz Austria contribute to the green energy transition?

From June 2025 until the end of 2026, the hydrogen plant will be supplied with three gigawatt hours of green electricity from 100 percent Austrian renewable sources every year. Through this cooperation with RAG Austria, ENERGIEALLIANZ Austria is strengthening its commitment to green hydrogen as a central component of the Austrian energy transition.

Where is the world's first hydrogen storage facility located?

In 2023, the world's first hydrogen storage facility was opened in an underground sandstone gas reservoir as part of the flagship project Underground Sun Storage 2030 (USS 2030) in the municipality of Gampern, Upper Austria. The project operation, consisting of two storage cycles, has been successfully completed. Press release | 16 May 2025
