BESS Energy Storage Station in the Philippines

Overview

The Masinloc BESS is the first battery energy storage facility in the Philippines and one of the first in Southeast Asia. What is a Bess & how will it benefit the Philippines?

Marcos said the BESS also holds great potential, not just in terms of generating sufficient, reliable and clean energy that will increase energy affordability, but also in terms of providing "green jobs". The BESS is the first of its kind in the Philippines and one of the largest integrated grid-scale battery energy storage projects in the world.

What is battery energy storage system (BESS)?

The Battery Energy Storage System (BESS) is part of a hybrid project combining a 16 MW wind power facility and the battery storage provided by Gamesa Electric. We supplied, installed and commissioned the complete energy storage system consisting of two Gamesa Electric Stor PCS charger stations and two Stor DC battery stations. The project also [.].

How is Bess transforming the Philippine energy industry?

With the commercial operations of approximately 1,000 MW of BESS facilities across 32 locations in the Philippines, we are now ushering in a new era for the Philippine energy industry through significant improvements in grid reliability and the integration of more renewable power sources to the country's diverse energy mix.

How many Bess facilities are there in the Philippines?

We are operating BESS facilities at 32 locations in the Philippines, across the regions of Luzon, Visayas, and Mindanao. Overall, we are putting up approximately 1,000 MW of BESS facilities, which will help ensure the reliability of the grid, especially in areas that are in most need of power quality solutions.

Is battery energy storage system the key to a more energy-secure Philippines?

MANILA – President Ferdinand R. Marcos Jr. on Friday said the Battery Energy Storage System (BESS) would become a crucial part of the government formula toward a more energy-secure Philippines. During the inauguration of the San Miguel Corporation’s (SMC) BESS in Limay, Bataan, Marcos said the.

What is Aboitiz Power's Bess project?

Aboitiz Power commits P1.2B to a pioneering hybrid BESS project in the Philippines. This model, integrating battery storage into thermal plants, is a blueprint for climate-resilient energy and grid stability in Asia.
