Belgian base station energy storage system prices

Overview

The total cost of €125.4 million (€20.2k/MW) is lower than last year's €182.9 million (€25.7k/MW). The weighted average price of €14.1k/MW/year remains well below the intermediate price cap (IPC) of €22.7k/MW/year. Where is the largest battery energy storage system in Europe?

The largest battery energy storage system in mainland Europe has gone live in Belgium, as Sungrow and ENGIE completed the first 400MWh phase of the 200MW/800MWh Vilvoorde project. Project: ENGIE Vilvoorde Battery Energy Storage System Capacity: 200MW / 800MWh (400MWh Phase 1 online) Location: Vilvoorde, Belgium.

What is the D-Stor battery storage project in Belgium?

A digital illustration of the D-STOR battery storage project in Belgium. Image: BSTOR. Project owners BSTOR and Energy Solutions Group have started building separate BESS projects totalling 440MWh of capacity in Belgium, following financial close, both of which will use Tesla Megapacks.

Why is battery storage important for Belgium's energy transition?

Upon completion of the second 400MWh phase by the end of 2025, the entire installation will be providing clean, stable power for about 96,000 homes and helping stabilize Belgium's power grid. Battery storage is one of the most vital, yet too often overlooked, pieces of the energy transition jigsaw," said Moritz Rolf, Sungrow Europe Vice President.

Is Belgium a good place to invest in battery storage?

Belgium is one of the most active and mature grid-scale energy storage markets in Europe, with diversified opportunities for monetising battery storage via flexibility markets and a supportive regulatory regime.

What is bstor & Energy Solutions Group doing in Belgium?

BSTOR and Energy Solutions Group have started building BESS projects

totalling 440MWh of capacity in Belgium, using Tesla Megapacks.

Which Belgian utility has closed financing for a Bess project?

Belgian utility Luminus has closed financing for the 150 MW/600 MWh BESS it is installing in the Wallonian region of Navagne. Described as the largest BESS currently under construction in Wallonia, the project, near a hydroelectric station in Lixhe, is due for commissioning in October 2026.
