I4B invests €30 m in a 600 MWh battery park in Visé, partnering with Luminus to boost grid stability and advance Belgium's renewable-energy goals. A major milestone in Belgium's energy transition has been reached with I4B - The Belgian Infrastructure Fund committing EUR 30 million to a.

Infrastructure investor I4B and utility Luminus have closed the financing and launched construction on a 150MW/600MWh BESS project in Belgium. The financial close means the companies broke ground earlier this month (5 June) on the 4-hour battery energy storage system (BESS) project in Navagne.

Eneco is investing in a major battery energy storage project in Wallonia. With the installation of a 50 MW/200 MWh of battery energy storage, sustainably generated electricity can be used more efficiently to balance Belgium's electricity grid. The permit has been obtained, the battery ordered and.

I4B - The Belgian Infrastructure Fund has invested EUR 30 million (USD 34.6m) in a 600-MWh battery energy storage system (BESS) project in Belgium, one of the country's largest to date. Energy storage battery. Photo by Anna Vasileva The project is developed in Vise, Liege province, in partnership.

Kallo, 14 May 2025 - NHOA Energy, the global provider of utility-scale energy storage systems, today celebrated with ENGIE the groundbreaking of a 400 MWh battery energy storage system (BESS) in Kallo, Beveren, Belgium. The project will be delivered by NHOA Energy to ENGIE under a supply contract.

The project consists of 82 Tesla Megapacks 2XL and can deliver 75 MW of power over a period of four hours. Belgian clean power developer Energy Solutions Group (ESG) has announced it has completed the project finance for

the 75 MW/300 MWh battery energy storage system (BESS) it is constructing in.
