Cambodia Reviews \$5.79B Investment In Energy Projects For 2024-2029./Image credit: Fresh News. Twenty-three new energy investment projects totalling a value of USD 5.79 billion were reviewed by the Council of Ministers during a cabinet meeting chaired by Cambodian Prime Minister Hun Manet on September 27, 2024.

How many solar projects are approved in Khmer?

According to the Khmer Times, the approved projects include 12 solar projects, 6 wind projects, 1 biomass and solar combined project, 1 LNG power generation project, 1 hydropower project, and 2 energy storage stations.

How many power stations are there in Cambodia?

Of these, 21 are power station projects with a combined capacity of 3,950 MW, and two are large-scale storage projects with a capacity of 2,000 MW. "These projects will play a crucial role in meeting Cambodia's electricity demand," the government statement said.

How can Cambodia improve energy security?

"These projects will enhance Cambodia's energy security by reducing reliance on imports and boosting domestic clean energy sources like solar, wind, hydropower, and biomass," the statement added.

What are Cambodia's energy goals?

Cambodia's energy objectives include maintaining an affordable power supply and generating 70% of the country's power from renewable sources by 2030, up from 50% in 2023. Cambodia must scale its LNG aspirations so that LNG-fired power does not derail the achievement of these goals.
