# Canadian energy storage lead-acid battery wholesale

## Overview

---

What kind of batteries are available in Canada?

Canadian battery supplier offering superior sealed lead-acid, lithium iron phosphate and lead carbon batteries. Battery experts specializing in energy solutions are available to help you find the best batteries for your project. State of the art battery equipment is used to manufacture batteries for consistent quality and fast production.

What is a sealed lead acid battery?

Canbat is constantly developing new battery technologies to meet the demands of the evolving global battery market. Sealed lead-acid batteries are often referred to as valve-regulated lead-acid (VRLA), or simply sealed lead acid (SLA). There are primarily two types of these batteries: AGM and Gel.

Are lithium batteries better than lead-acid batteries?

Lithium batteries have 10 times higher cycle life and are 60% lighter than lead-acid batteries. Canbat is Canada's #1 lithium battery company. Canbat lead carbon batteries are designed with PSOC compatibility for ultra-fast charging capability, efficiency and more than three times as many cycles as standard AGM batteries.

Where can I find the best batteries & power conversion solutions?

With headquarters in Calgary, Alberta, we provide the best batteries and power conversion solutions for Transportation, Motive Power, Energy Storage and Stationary Infrastructure applications. We have 19 branches across the country and a network of over 10,000 dealers nationwide.
