

Kongres Container

Canadian power generation container customization

Overview

What is a containerized generator enclosure?

Our containerized generator enclosures are built to be highly mobile, allowing you to easily transport and relocate your generator equipment as needed. The modular design enables quick assembly and disassembly, making it an excellent choice for temporary power needs or projects requiring frequent relocation.

What size generator container do I Need?

Our generator containers for Type 2, 3, and 4 gas engines have a standard 40-foot length. Width and height depend on engine type, the application (power generation only or CHP) and ambient conditions. Customized sizes to accommodate special project requirements are available on request.

Are containerized generators reliable?

Years of use in the rental, oil and gas, mining and other heavy-duty industries have tested the reliability, usability and durability of our containerized generators. Our primary design challenges in developing this line of containerized generators were usability, reliability and functionality for the end user.

What are container modifications?

Container modifications allow you to customize your storage container according to specific needs. Container Technology's modification offerings provide comprehensive options to tailor your unit, empowering businesses to meet their business objectives more effectively with containers customized for their uses.

Which genset containers are available?

All genset containers are also available with an option for -40°C and most variants can be upgraded for +45°C. A broad range of options, both

mechanical and electrical, are available to ensure that our containers meet the project requirements. For example, we offer several heat recovery configurations and exhaust after treatment systems.

Can you convert a shipping container & storage container?

Let us convert a shipping container and storage container to fit your unique requirements. Our knowledgeable staff at Container Technology has over 30 years of experience with custom container modifications to assist you from start to finish.
