# Chad Communications 2025 Rural 5G Base Station

## Overview

---

How big is the 5G base station equipment market?

The 5G base station equipment market is estimated to reach US\$52.733 billion by 2030 from US\$29.865 billion in 2025, growing at a CAGR of 12.04%. 5G base stations form the backbone of next-generation wireless networks, enabling enhanced bandwidth, ultra-low latency, and broader coverage to support rising connectivity demands.

How many 5G base stations will China build in 2025?

China plans to construct over 4.5 million 5G base stations in 2025 while introducing additional policy and financial incentives to support industries expected to shape the next decade, the country's Ministry of Industry and Information Technology (MIIT) announced during its annual work conference.

What is a 5G set sail action plan?

Known as the second "Set Sail" action plan, it prioritizes consumer-oriented applications and aims to: increase 5G base stations to 38 per 10,000 people; achieve 5G user penetration higher than 85%; ensure that over 75% of network traffic is carried via 5G networks.

What will China do with the 5G push?

Alongside the 5G push, China will also start trials for 10-gigabit optical networks and optimize computing power centers amid an artificial intelligence (AI) boom brought on by ChatGPT.

What is the future of 5G infrastructure?

Major players include Huawei, Samsung, Nokia, Ericsson, and Cisco. As smart cities, IoT, and mmWave technology expand, the 5G infrastructure market will continue strong growth, shaping the future of high-speed connectivity.

How many mobile operators in China are launching 5G & 5g-a?

Mobile operators in China are ramping up 5G and 5G-A rollouts, with the former now at 4.5 million cell sites and the latter in 300 cities.
