# China Communications Corporation to build 5G base stations

## Overview

---

How many 5G base stations will China build in 2025?

China plans to construct over 4.5 million 5G base stations in 2025 while introducing additional policy and financial incentives to support industries expected to shape the next decade, the country's Ministry of Industry and Information Technology (MIIT) announced during its annual work conference.

How many base stations will China install in a year?

China's Ministry of Industry and Information Technology (MIIT) set itself an ambitious goal of installing three million of them by the end of the year. Over the last three months, more than 600,000 installations were completed to achieve the target six months prior and leaving the US far behind in absolute numbers of base stations.

How many 5G sites are there in China?

Mobile operators in China are ramping up 5G and 5G-A rollouts, with the former now at 4.5 million cell sites and the latter in 300 cities; a new 2027 roadmap will see 75% of mobile data in the country on 5G networks. 5G on 5M sites - China has over 4.486 million 5G sites; 5G now comprises more than 35% of total mobile base stations.

How many 5G base stations are there in India?

Citing that the country has built a staggering 4.19 million 5G base stations, the industry regulator said that "promoting 5G revolution and 6G innovation will be one of the priorities" next year.

Will China upgrade its 5G mobile network to 5g-a level?

China will continue to accelerate the research, development, and innovation of 6G cellular technology and upgrade its 5G mobile network to reach 5G-A level in its new data infrastructure construction plan, a guidance released on Monday showed.

## Will 5G boost China's economic growth?

Qualcomm, a primary provider of technology for mobile networks, estimates that 5G can potentially enable over US\$13 trillion of economic output and create over 22 million jobs. China made the rollout of 5G networks a vital component of its push to boost economic growth and now boasts nearly three million base stations, according to government data.
