# Cost plan for wind and solar hybrid base station in Poland

## Overview

---

Will electrum build Poland's first solar-wind hybrid power plant?

Home » News » Electrum to Build Poland's First Solar-Wind Hybrid Power Plant for Lewandpol Group The hybrid solar-wind power plant with a total connected capacity of 205 MW, owned by Lewandpol Group, is the latest project undertaken by the Polish engineering and technology group, Electrum.

Which companies are involved in the Kleczew solar & wind farm?

Three companies within the Electrum Group, namely Electrum Concreo, Electrum Solutions, and Electrum Ventures, are involved in the implementation of the Kleczew Solar & Wind farm. Key suppliers for this extraordinary project include Jinko Solar, Huawei, Budmat, and Tele-Fonika Kable.

How can PPAs improve project profitability in Poland?

Poland's PPA market is poised for significant growth, driven by regulatory reforms, rising corporate demand for green energy, and the increasing involvement of utilities. The combination of PPAs and RES support schemes offers a promising pathway for maximizing project profitability.

When will a wind farm & solar farm be built?

The completion of the first phase of the investment, which is the solar farm construction, is scheduled for the second half of 2023, while the wind farm is set to be established in 2024. The construction of the energy storage facility is planned for a later stage of the project.

What is the future of PPAs in Poland?

According to Aurora Energy Research's report "The Future of PPAs in Poland," this expansion, set to raise the total renewable capacity to 54GW, is part of the Polish government's updated National Energy and Climate Plan (NECP).

How does CFD work in Poland?

Optimized CfD scheduling: Operators can increase revenues by retrospectively adjusting their contracted volumes under CfD agreements to align with hours of peak electricity prices. This flexibility is a key feature of Poland's CfD framework, which allows for under-delivery of up to 15% without penalties.
