What types of inverters are available?

We offer a variety of specifications and models of inverters to meet your power needs, whether for home, automotive, or travel purposes. The Leaptrend Sirius series 3000W 12V Pure Sine Wave Inverter is perfect for most off-grid systems, whether for a van, RVs, trucks, boats, yachts, coffee van inverter or any remote location needing power.

How do I connect a solar panel to an inverter?

Simply connect the solar panel directly to the on grid inverter, no need to connect the battery again. The waterproof grade of the inverter grid tie 1000W is IP23, and the installation mode is wall hanging. This capacity is suitable for smaller solar panel installations or setups in residential areas where space and energy needs are moderate.

How many powmr 5000W hybrid inverters are left?

Only 16 PowMr 5000W hybrid inverters with 80A MPPT Charge Controller are left in stock - order soon. These inverters offer a pure sine wave inverter DC to 220-230VAC, support utility/generator/solar charge, and come with a

Bluetooth LCD USB control. They are suitable for 48v Lead-Acid and Lithium batteries.

What is a modified sine wave inverter?

Modified sine wave inverter, or quasi-sine wave inverter, works with most of standard appliances. Based on simple but older technology, typical modified sine wave inverter can be applied to simple power system without any delicate electronics or audio equipment.
