Distribution of Hydrogen Energy Stations in the United States

Overview

Existing and planned hydrogen fueling stations in the U.S. are available to view on a map or download as a spreadsheet from the Alternative Fuels Data Center. Where can I find information about a hydrogen fueling station?

Existing and planned hydrogen fueling stations in the U.S. are available to view on a map or download as a spreadsheet from the Alternative Fuels Data Center. The site includes information regarding location, accessibility, hours of operation, and payment method.

How many hydrogen fueling stations are there in 2024?

As of 2024, there are just 74 hydrogen fueling stations across the entire country. Despite decades of hype around hydrogen vehicles, America's fueling network remains sparse, with just 74 stations nationwide in 2024.

How many hydrogen fuel stations are there in the US?

The U.S. hydrogen fueling landscape is pretty sparse, with just 74 stations nationwide. California, naturally, hogs most of them - 54 retail locations. The rest?

Scattered like breadcrumbs across seven states, with Hawaii managing two stations and others settling for one each. Michigan and Ohio each have a couple of non-retail spots.

Which states are getting more hydrogen stations?

In addition, Texas, Florida and the Pacific Northwest are seeing an increase in hydrogen station projects thanks to investments from energy and automotive companies. The forecasts also include the establishment of hydrogen corridors on key transportation routes, facilitating the use of hydrogen vehicles for long-distance travel.

How many hydrogen fueling stations will open in 2025?

Expansion in these states has been driven by both public and private initiatives to encourage the adoption of hydrogen vehicles. Ahead of 2025, additional hydrogen fueling stations are expected to open in several regions of the United States. In California, the number of stations is planned to increase to 100 by the end of 2025.

How do I find a number of hydrogen stations?

Roll over a state on the map for count of hydrogen stations. To map hydrogen stations near a specific address or city, use the Alternative Fueling Station Locator. For station counts and historical information, see Station Counts by State. Find maps and charts showing transportation data and trends related to alternative fuels and vehicles.
