Djibouti New Energy Double Glass Module

Overview

Will Djibouti be the first country to produce 100% green energy?

In its bid to become the first country on the continent to produce 100% green energy by 2035, Djibouti can also draw on other ambitious projects. These include the solar power project in the Grand Bara desert, for which work began in 2020.

Does Djibouti have a monopoly on electricity?

It should be noted that the state-owned company Électricité de Djibouti retains a monopoly on the transmission and distribution of electricity. The project was developed by Red Sea Power (RSP). “This site has the best wind energy potential in Africa, alongside Tangiers in Morocco,” says François Maze, its CEO.

Why did Djibouti open up electricity production to independent operators?

For the government, the aim was to open up electricity production to independent operators so as to achieve energy independence as soon as possible. It should be noted that the state-owned company Électricité de Djibouti retains a monopoly on the transmission and distribution of electricity. The project was developed by Red Sea Power (RSP).

Will Djibouti be self-sufficient in energy production in 2035?

In December 2023, the Republic of Djibouti signed up to the African Green Hydrogen Alliance. The country’s formidable prospects in terms of renewable energy means that Slim Feriani can look to the future with confidence. “The objective for 2035 is to be self-sufficient in energy production,” he says. “We should get there before then.

What is AMEA power of Djibouti?

The project was originally developed by France’s Engie, which withdrew in 2022 in favour of AMEA Power of the Emirates, which has signed a public-

private partnership contract with the Sovereign Wealth Fund of Djibouti. It will be the first national-scale solar power plant to meet electricity demand.

Did AMEA power sign a power purchase agreement with Electricité de Djibouti?

AMEA Power announced the signing of the power purchase agreement (PPA) with Electricité de Djibouti (EDD) today (29 August). The signing ceremony, pictured above, was witnessed by the Minister of Energy and Natural Resources of Djibouti, which is on the East Coast of Africa.
