Energy Storage Inspection Plan

Overview

What is a battery energy storage inspection checklist?

The Inspection Checklist is intended to be utilized as a guideline for field inspections of residential and small commercial battery energy storage systems. It can be used directly by local code enforcement officers or provided to a third-party inspection agency, where applicable.

Do energy storage systems need to be inspected and tested?

Systems that monitor and protect the energy storage system installation shall also be inspected and tested in accordance with the manufacturer's instructions and Section 1206.9.2. 1206.9.3 Decommissioning. The Authority Having Jurisdiction shall be notified prior to energy storage system decommissioning.

What is the battery energy storage system guidebook?

The Battery Energy Storage System Guidebook (Guidebook) helps local government officials, and Authorities Having Jurisdiction (AHJs), understand and develop a battery energy storage system permitting and inspection processes to ensure efficiency, transparency, and safety in their local communities.

What should be included in an energy storage plan?

The plan shall include details on providing a safe and orderly shutdown of the energy storage system that includes the following: 1. A narrative description of the activities to be accomplished for removing the energy storage system from service, and from the facility in which it is located. 2.

What's new in energy storage safety?

Since the publication of the first Energy Storage Safety Strategic Plan in 2014, there have been introductions of new technologies, new use cases, and new codes, standards, regulations, and testing methods. Additionally, failures in

deployed energy storage systems (ESS) have led to new emergency response best practices.

What if I have any questions about the battery energy storage system permit?

If you have any questions about the Battery Energy Storage System Model Permit, please email questions to cleanenergyhelp@nyscrda.ny.gov or request free technical assistance at nyscrda.ny.gov/Energy-Storage-Guidebook. The NYSCRDA team looks forward to partnering with communities across the State.
