

Kongres Container

Eritrea containerized power generation manufacturer

Overview

Where can I find information on renewable power capacity & generation of Eritrea?

You can find information on the renewable power capacity and generation in Eritrea on the homepage of IRENA.org. Climatescope 2019 lists the clean energy policies and investments for Eritrea.

How many manufacturing enterprises are there in Eritrea?

Currently, there are approximately 2,500 manufacturing enterprises in Eritrea. Out of these, about 500 have been established after liberation, while the rest were more than 20 years old as of May 24, 1991.

What is a containerised generator?

Our Containerised Generators deliver robust, high-capacity power from 300–3,000 kVA in secure, weather-resistant enclosures. Designed for challenging environments and critical applications, they offer noise reduction, easy transport, and bespoke configuration to meet your site's exact needs.

What is a containerized power module?

Fueled by natural gas, the power module is dedicated to the production of electrical energy. Containerized power module with a power output of 3MW. Plymouth, UK. Flexible generation power plant to balance the local electricity network in an area with growing demand. 2 containerized power modules with a combined power of 5 MW. Yeovil, UK.

Why should you choose a containerised generator?

Containerised Generators are trusted across industries where reliability and resilience are non-negotiable, such as Healthcare and Rail infrastructure. Every unit can be tailored to your project with options for fuel type, noise attenuation, and space-saving layout.
