# Estonia mobile power station power generation

## Overview

---

Significant transformations in the oil shale-based electricity production infrastructure include the commissioning of the new Auvere Power Plant in 2018 and the decommissioning of older facilities. Overview Estonia's electricity sector is interconnected with regional energy markets, particularly through connections with and . The direct electrical interconnection with Finland was established in 2006 and was further stre.

Electricity in 2020: • Usage - 9.17 billion kWh • Production - 5.9 billion kWh • Import - 7.37 billion kWh • Export - 3.72 billion kWh.

Oil-based fuels, including oil shale and fuel oils, accounted for about 80% of domestic production in 2016. There is also some natural gas capacity, but no coal generation. The largest power complex in the country.
