Fiji Energy Storage System Integration Company

Overview

What is EPC solar doing in Fiji?

Indigenous-owned EPC Solar said the projects are part of a pipeline of more than 40 potential installation sites in Fiji which is targeting 100% renewable energy by 2036. The company also plans to expand its operations into New Zealand and then other Pacific nations – islands it says will bear the brunt of climate change and rising sea levels.

Why should Fiji invest in REI projects?

Fiji is vulnerable to climate change, which could increase the risk of flooding, worsen coastal erosion, harm biodiversity, and increase the frequency and severity of tropical cyclones. REI projects can help build a more disaster- and climate-resilient energy sector.

How many solar PV installations are there in Fiji?

Around 150 rooftop solar PV installations are also operating in Fiji, accounting for about 580 MWh per year, although the majority are very small projects. EFL expects generation to increase to 1,000 MWh in the coming years.

Why should you choose island solar Fiji?

Island Solar Fiji ensures its commitment to quality and reliability by exclusively partnering with trusted and reputable solar brands. Our dedication to using trusted brands guarantees that our customers receive the highest standard of solar products and services in Fiji.

What is a green energy circuit for Fiji?

A well-designed transmission grid will also take into consideration the risk of VRE on the operational stability of the system (See Figure 4.1). The proposed Green Energy Circuit for Fiji will upgrade and improve climate resilience of the existing transmission network to enable evacuation of existing and planned solar, hydropower, and wind.

How many people in Fiji have electricity?

Most Fijians have access to electricity, but there is a substantial rural-urban disparity. Roughly 96 percent of the population has access to electricity, either via a connection to the state grid (80 percent), home solar systems (11 percent), or diesel generators (4.5 percent).^{34 31} Energy Fiji Limited. (2022). “2021 Annual Report.”
