# Finnish energy storage project integration company

## Overview

---

Merus Power and Exilion have signed an agreement for a 30MW / 66MWh energy storage system, which will be completed during 2026 in Kuortti, Mäntyharju, bringing a significant energy investment to Eastern Finland.

Merus Power and Exilion have signed an agreement for a 30MW / 66MWh energy storage system, which will be completed during 2026 in Kuortti, Mäntyharju, bringing a significant energy investment to Eastern Finland.

Heliostorage specializes in efficient energy storage, particularly through their innovative thermal energy storage solutions that help reduce carbon emissions and energy costs. By capturing and storing energy from the sun, they enhance heat pump efficiency and provide reliable heating without.

Fotowatio Renewable Ventures (FRV), part of Jameel Energy, has announced a partnership with AMPTank Energy to deliver a 100MW/200MWh battery storage project named SIMO in Finland. Located near Fingrid's Simojoki substation in the Lapland region, SIMO represents the second phase of FRV's storage.

Ardian, a world-leading private investment house, in partnership with its operating platform eNordic, today announces it has taken Final Investment Decision to build its second battery energy storage system (BESS) in Finland. This new 30 MW/30MWh BESS project further strengthens Ardian's commitment.

PotisEdge, a globally recognized leader in advanced energy storage solutions, has secured a major partnership with Aittub Oy in Finland for a 600MWh battery energy storage project. The agreement includes the first-ever order for PotisEdge's newly launched PotisBank L6.25 system, signed immediately.

Helsinki's Capalo AI has entered into a partnership to provide its trading and optimization services to a 70 MW / 140 MWh BESS in Šalčininkai, a city in Lithuania. The Šalčininkai BESS is a standalone system owned by fellow Finnish company Olana Energy, scheduled for commercial operation in the.

Winda Energy, a Finnish renewable energy developer, has announced its entry into the energy storage market with a new 30MW/60MWh battery energy storage system (BESS) in Rautavaara, Finland. The project, developed in partnership with Czech energy technology firm Second Foundation, marks Winda.
