Full name of national standard battery cabinet company

Overview

Founded in 2006, Yantai Gaoshengda Precision Machinery Company is a leading electrical equipment enclosure manufacture and exporting company, with 18+ years of experience in the industry. When did a sodium-ion battery become a commercial power station?

In 2023, Great Power sodium-ion battery entered the commercialization stage, and in July of the same year, Great Power Energy Qingdao North Shore Holding big data center signed a contract, marking the scale application of sodium-ion battery energy storage power station entered the practical stage.

What certifications does national battery supply have?

Each product comes with CE, UL and RoHS certifications for qualification in international distribution. With National Battery Supply, you get a battery manufacturer dealing with high energy density and long lasting battery and charging solutions.

Why should you choose national battery supply?

With National Battery Supply, you get a battery manufacturer dealing with high energy density and long lasting battery and charging solutions. Thanks to our positive electrode and vacuum immersion techniques, we ensure efficient charging, discharging and long lasting storage products with long life spans.

What are battery explosion-proof charging cabinets used in warehouses?

Battery explosion-proof charging cabinets used in warehouses can effectively avoid the risk of warehouse fires and explosions. They are specifically designed for the safe storage and charging of hazardous chemicals such as lithium batteries, preventing fires and explosions, and controlling chemical leaks.
