Georgia s telecommunications base station flow battery tender

Overview

Does Georgia Power have a new battery energy storage system?

ATLANTA, Aug. 29, 2024 / PRNewswire / -- Georgia Power has identified locations for 500 MW of new battery energy storage systems (BESS) authorized by the Georgia Public Service Commission (PSC) earlier this year as part of the company's 2023 Integrated Resource Plan (IRP) Update.

What is Georgia Power doing in 2022?

The company is also developing the 265 MW McGrau Ford Phase I BESS project, approved in the 2022 IRP, and expects it to enter service by the end of 2026. To learn more about how Georgia Power is meeting the needs of customers through a diverse, balanced energy portfolio, visit .

What does Georgia Power do?

“At Georgia Power, we work with the Georgia PSC and many other stakeholders to make the investments required for a reliable and resilient power grid, integrating new technologies to better serve our customers today and as Georgia grows,” said Rick Anderson, senior vice president and senior production officer for Georgia Power.
