## Overview

---

Construction of Gardabani TTP -2 is carried out by China Tianchen Engineering Corporation (TCC) – one of the major engineering corporations of China established in 1953 in the eastern city of Tianchen. Who is JSC Georgian state electrosystem (GSE)?

JSC Georgian State Electrosystem (GSE) is a power transmission system operator. Our company owns and operates 3,550 km power transmission lines and 93 substations all over the country. Transmission network is controlled by the National Dispatch Center, and the maintenance by the 3 regional networks (East, West and Kakheti regional networks).

What is the installed capacity of Gardabani power plant?

The installed capacity of the power plant is the same (230MW) as the one of the first energy efficient thermal power plant in Gardabani which was launched in 2015. The plant is equipped with modern “General Electric” gas and steam turbines and generators.

When will Gardabani 2 power plant be completed?

The project was completed in December 2019. In March 2020 GNERC issued electricity generation license to Gardabani 2 LLC and consequently Power Plant was put into exploitation in 2020. The installed capacity of the power plant is the same (230MW) as the one of the first energy efficient thermal power plant in Gardabani which was launched in 2015.
