Greece plans to provide EUR 1 billion in state subsidies to support two solar power projects, with a total capacity of over 800 MW and with integrated energy storage units. The European Commission has given the green light for the subsidies, which will take the form of a two-way contract for.

The European Commission has approved €1 billion (\$1.08 billion) of Greek measures under EU state-aid rules to support two utility-scale solar projects with lithium-ion batteries and molten-salt thermal storage. The funds will take the form of a contract for difference (CfD) over a period of 20.

The projects will pair solar PV with two different energy storage technologies, including one based around molten salt. Image: Mytilineos. The European Commission has approved a €1 billion (US\$1.1 billion) state aid measure for Greece to support two solar-plus-storage projects. Consisting of two.

The state aid will support the construction of two solar-plus-storage projects in Greece with a cumulative PV capacity of 813MW. Image: Business Wire. The European Commission has approved a €1 billion (US\$1.1 billion) Greek state aid measure to support two solar-plus-storage projects. Consisting of.

Lightsource BP is a leading independent power producer (IPP) specializing in utility-scale solar PV and energy storage solutions across Europe, the Americas, and the Asia Pacific region. As a wholly-owned subsidiary of BP, Lightsource BP leverages financial strength and expertise to develop.
