Haiti solar Power Station Inverter

Overview

Why is distributed solar PV the only energy source in Haiti?

Since only about 13% of the people even have grid access, distributed solar pv is the only energy source that can supply all the people electricity for now. Haiti has limited energy resources: no petroleum or gas resources, small hydroelectricity potential and rapidly declining supplies of wood fuels.

Is Haiti a solar power market?

Recently, many solar companies have seen Haiti as a huge market potential for solar energy. The founder of 10Power estimates that the potential solar power market is worth over \$500 million. In 2013, the completion of Hôpital Universitaire de Mirebalais came to an end. This hospital is the largest solar-powered hospital in the world.

What is the solar power plant capacity in Haiti?

The solar power plant in Haiti has a capacity of 1.2 MWp. It is located in the Commune of Jacmel, South-East Department, and is connected to the regional electricity network of Jacmel.
