# Hungary requires solar to add energy storage

## Overview

---

The Hungarian Ministry of Energy has said that more than 20,000 households have applied for the Napenergia Plusz Program, a grant scheme for installing residential solar panels and storage.

The Hungarian Ministry of Energy has said that more than 20,000 households have applied for the Napenergia Plusz Program, a grant scheme for installing residential solar panels and storage.

The Hungarian government says 20,000 households have signed up for its PV subsidies scheme, which offers up to HUF 5 million (\$14,125) per home installation. The original HUF 75.8 billion budget was increased by HUF 30 billion in July. The Hungarian Ministry of Energy has said that more than 20,000.

To manage the challenges of volatile green energy generation, energy storage solutions are essential. They allow the excess produced during the day to be stored for peak consumption times in the late afternoon or early evening. This not only increases efficiency but also smooths out extreme price.

The European Commission has approved a €1.1 billion (approximately HUF 436 billion) Hungarian scheme to support electricity storage facilities to foster the transition to a net-zero economy. The scheme was approved under the State aid Temporary Crisis and Transition Framework, adopted by the.

Domestic support for energy storage may soon increase to more than HUF 300bn, with several large storage facilities likely to be inaugurated this year, Energy Minister Csaba Lantos said in an interview with business daily Világgazdaság. Lantos said through currently running applications, families.

Hungary's subsidy scheme for energy storage will drive huge growth in battery energy storage system (BESS) deployments over the next few years. Hungary has 40MWh of grid-scale BESS online today but that will jump 3,400% to around 1,300MWh over the next few years thanks to opex and capex support.

On 14 August 2023 the Hungarian Government issued Gov. Decree 382/2023 (" Decree ") establishing the legal framework for the implementation and functioning of the new Contracts for Difference (" CfD ") support scheme for electricity storage operators (" Storage CfD Scheme "). Based on the public.
