Zurich, 30 June 2025 – Galileo, the pan-European renewable energy development and investment platform, has completed the sale of a fully authorized 98 MW battery energy storage project located in Southern Italy to an international Independent Power Producer (IPP) with a growing presence in Italy.

The largest project, a 160 MW facility, will be built in the municipality of Tuscania. Italy's Ministry of the Environment and Energy Security (Mase) has issued final approvals for five new battery energy storage system (BESS) projects, paving the way for 361 MW of new capacity to be added to the.

The Vicari BESS, supplied on a turnkey EPC basis, integrates advanced storage technologies with two of ERG's onshore wind farms, strengthening Sicily's role in Italy's energy transition VICARI, Italy-- (BUSINESS WIRE)-- NHOA Energy, a global provider of utility-scale energy storage systems.

Milan, Italy — October 09, 2025 — Enfinity Global Inc., a leading renewable energy company, today announced the successful closing of an equity and development partnership with a prominent European investor to close the development and commissioning of a 486 MW battery energy storage system (BESS).

Italy broke new ground in energy storage with its very first battery storage auction, competitively awarding the full 10 gigawatt hours (GWh) of capacity put up for tender. One standout among the awards is GreenVolt, which

bagged a 499 MWh battery project in southern Italy's Calabria. The project.
