# Indonesia pack lithium battery

## Overview

---

Is Indonesia the largest lithium-ion battery manufacturing hub in Southeast Asia?

With a background in consultancy, energy retail, and international Indonesia is on track to become the largest lithium-ion battery and component manufacturing hub in Southeast Asia. This is thanks to its abundant raw material resources, including nickel and cobalt, and investments from global companies.

Who is supplying power batteries in Indonesia?

The production would be supplied to both domestic and foreign markets. A \$6 billion power battery project agreed upon in 2022 by Indonesian enterprises, including state miner PT Aneka Tambang Tbk, opens new tab, and a CATL consortium includes the partnership between Indonesia Battery Corp and the Chinese behemoth Contemporary Amperex Technology Co.

How will Greenway develop a lithium battery factory in Indonesia?

In terms of technological capabilities, Greenway will inject its globally leading lithium battery technology and PACK production expertise into the Indonesia factory. Using this as a starting point, the company aims to gradually achieve localized production of battery cells.

Does Indonesia need a battery factory?

The founder of the National Battery Research Institute (NBRI), Evvy Kartini, when contacted by Kompas, Thursday (7/8/2025), said that the lithium needs that Indonesia needs to import depend on the production capacity of the battery factory that will be established.

Should Indonesia import lithium?

JAKARTA, KOMPAS — Indonesia opens the opportunity for lithium imports in order to support the electric battery ecosystem project currently being

developed domestically. The government argues that imports are necessary for the time being while exploring lithium reserves in the country.

Why is Indonesia a key player in the battery supply chain?

As Southeast Asia's largest economy, Indonesia has strategically positioned itself as a critical player in the global battery supply chain, with several key cities developing into hubs for lithium battery production.
