

## Kongres Container

# Ireland environmentally friendly container wholesale

## Overview

---

Is eco-friendly packaging a trend in Ireland?

Summer in Ireland brings a buzz that's hard to ignore. Street food markets pop up everywhere, from city squares to business parks, serving everything from gourmet burgers to hand-cut chips. And as more companies jump on board to host or cater these events, one trend. Eco-friendly packaging has come a long way in a short time.

Why should you choose US for sustainable catering solutions in Ireland?

Choose us for sustainable catering solutions in Ireland. Our streamlined, purpose-built 100K+ sqf facility is a powerhouse of innovation and efficiency. It symbolises our approach of maximising every inch of space to deliver outstanding products while minimising waste and energy consumption.

Are eco premium paper bags sustainable?

100% Sustainable Production Process. Made from renewable resources and recycled materials. COMING SOON!!! Our Eco Premium Paper Bags are commonly used in departmental stores, boutiques, clothing outlets and other retail stores for variety of goods and services. They come in variety of colours, shapes and sizes.

What are deli containers made of?

Range of crystal clear clarity cups, lids, and deli containers made from a biopolymer called PLA (polylactic acid). PLA performs much like traditional plastics, but with the crucial benefit of being 100% compostable in commercial facilities (check with local recycling). PLA is suitable from Freezer temperatures to Room Temperature.
