Is Huawei s energy storage liquid-cooled or air-cooled

Overview

Huawei Nigeria Digital Power has officially launched its groundbreaking energy storage innovation, the LUNA2000-215 Series, heralded as the world's first commercial and industrial (C&I) energy storage system to combine both air and liquid cooling technologies.

Huawei Nigeria Digital Power has officially launched its groundbreaking energy storage innovation, the LUNA2000-215 Series, heralded as the world's first commercial and industrial (C&I) energy storage system to combine both air and liquid cooling technologies.

Huawei Digital Power has launched the FusionSolar C&I LUNA2000-215-2S10 Energy Storage System, designed to meet the dynamic demands of the commercial and industrial (C&I) energy storage sector across the country. With a focus on system safety, refined management, and intelligent applications, the.

Inter-cell heat insulation and rapid liquid cooling, preventing thermal diffusion between cells. IP65 protection, prevent oxygen from entering the battery pack and prevent fire inside the battery pack. The combustible gases are exhausted through a L-shaped duct to prevent combustion and explosion.

In response to this increase, Huawei Digital Power is launching the Luna2000-215 Series, an energy storage solution designed for companies producing solar energy. It helps reduce their dependence on the power grid, lower electricity bills, and accelerate their transition to renewable energy.

Huawei Digital Power Sub-Saharan Africa FusionSolar recently brought together industry partners and key stakeholders from the continent's Commercial & Industrial (C&I) energy sector to unveil the LUNA2000-215 Series, the world's first hybrid air- and liquid-cooled C&I energy storage system (ESS).

Huawei has recently introduced the industry's first commercial new smart Hybrid cooling energy storage solution in Europe. It comes with several benefits and offers a circulation efficiency of 91.3% alongside a reliable user

experience. On April 8, 2025, Huawei hosted a FusionSolar Industrial and.

Huawei Nigeria Digital Power has officially launched its groundbreaking energy storage innovation, the LUNA2000-215 Series, heralded as the world's first commercial and industrial (C&I) energy storage system to combine both air and liquid cooling technologies. The launch marks a major milestone in.
