Jordan Large Energy Storage Power Plant

Overview

Can pumped hydroelectric energy storage systems be used in Jordan?

See further details here. In this study, the technical and economic feasibility of employing pumped hydroelectric energy storage (PHES) systems at potential locations in Jordan is investigated.

Is battery energy storage possible in Jordan?

In response to this, Fichtner in collaboration with the Jordanian Ministry of Energy and the transmission system operator, NEPCO, has analyzed the potential for battery energy storage and, in the role of Transaction Advisor, is providing support for implementing a pilot project.

Should energy storage be integrated with PV systems in Jordan?

Energy storage is a very contemporary concept in the energy sector in Jordan. This paper sends a clear message to governmental agencies, policy-makers, and investors about the viability of PHES integrated with PV systems in Jordan by taking into account the fact that Jordan is among the sunbelt countries.

Is natural gas a major source of electricity in Jordan?

Although natural gas continues to be the main source of electricity production in Jordan, the country has ambitious goals to boost the portion of RE in its electricity production mixture to 31% by 2030. Additionally, the country is making significant investments in the development of its RE sector .

Can water-pumped hydro storage improve the penetration of re systems in Jordan?

The authors proved that water-pumped hydro storage in this proposed design could regulate the demand/supply to balance and mitigate the difference between off-peak and peak intervals, playing a significant part in stabilizing the grid and enhancing the penetration of RE systems in Jordan.

Why is energy a major political issue in Jordan?

Electricity production in Jordan is largely based on imported oil and natural gas. After the disruption of the Egyptian gas supply, Jordan has faced significant economic strain. Therefore, reassessing policies towards more secure energy has become one of the main political issues in Jordan.
