Kiribati Communication Base Station Wind Power and solar Power Generation System

Overview

Should solar PV be deployed in Kiribati?

The findings of this roadmap show that power sector is a key area, where the ongoing efforts from the deployment of solar PV should be continued and complemented with and improvement of efficiency in Kiribati's entire energy system, including electricity use, heating, cooling, and transport.

What is the Kiribati grid connected solar PV project?

Ending in 2018, the Kiribati Grid Connected Solar PV Project is coordinated by the World Bank and funded through a US\$1 million grant from the Global Environment Fund (GEF) and a US\$2.92 million grant from the Government of Australia, through the Pacific Regional Infrastructure Facility (PRIF).

What is the Kiribati energy roadmap?

The KIER is Kiribati's comprehensive energy roadmap, which takes into account renewable energy and energy efficiency potential in all sectors from 2017 to 2025.

Who is behind the STREP project in Kiribati?

Pictured are ADB and local government representatives at the groundbreaking ceremony of the STREP project in Kiribati. (Photo Credit: Asian Development Bank) The Oceania located nation of Kiribati has started construction on the country's largest solar PV project that's backed by the Asian Development Bank and the Government of New Zealand.
