

Kongres Container

Kyrgyzstan grid-connected solar panel manufacturer

Overview

Does Kyrgyzstan have good solar energy potential?

Ibraev Taalaibek Omukeevich, Minister of Energy of the Kyrgyz Republic, said: “Today, the energy system of the Kyrgyz Republic faces challenges meeting the significant demand for electricity from all categories of consumers with our existing resources. At the same time, Kyrgyzstan has good solar energy potential.

Why is Kyrgyzstan launching a 200 MW solar plant?

Kyrgyzstan is blessed with abundant solar resources and we see this 200 MW plant being the first of a number of projects that will support the nation’s goals on emissions reductions, while increasing clean energy access and security.”.

What is IFC doing in Kyrgyz Republic?

IFC has been also supporting the government of the Kyrgyz Republic to assist it in designing a competitive tender for a PPP with an established airport operator to invest in the infrastructure of Manas International Airport. The Scaling Solar program has been a strong success and delivered competitive tariffs.

Why is Kyrgyz Republic a good place to live?

The Kyrgyz Republic is endowed with abundant and largely untapped renewable resources, providing a viable and competitive solution to meet its growing demand while expanding its power mix.
