The Eaton® Samsung Gen 3 Battery Cabinet provides power for energy storage and emergency backup power for the Eaton Uninterruptible Power Supply (UPS) systems to enhance the usability and reliability of the systems. The batteries are housed in a single free-standing cabinet. The battery cabinets.

Lithium-ion batteries are the driving force behind today's portable power revolution—powering everything from electric vehicles to industrial equipment, tools, and communication systems. As their use expands across sectors, so do the risks associated with improper handling, charging, and storage.

Battery Energy Storage Systems, or BESS, help stabilize electrical grids by providing steady power flow despite fluctuations from inconsistent generation of renewable energy sources and other disruptions. While BESS technology is designed to bolster grid reliability, lithium battery fires at some.
