Low Carbon Institute All-Vanadium Liquid Flow Battery

Overview

In order to promote the all-vanadium liquid flow battery energy storage technology, the Low Carbon Institute developed an all-vanadium liquid flow battery energy storage module, which was connected to the Boao Forum News Center's photovoltaic storage direct and flexible system, realizing the functions of on-site consumption of new energy green electricity and peak shaving and valley filling, ensuring that the Boao Forum News Center basically achieves near-zero load during peak and flat periods of electricity consumption, and facilitating the smooth convening of the Boao Forum.
