Malta Energy Storage Power Station Price

Overview

Why should Malta invest in battery energy storage systems?

The launch of these tenders marks a crucial step in Malta's journey towards a more sustainable and resilient energy future. By investing in Battery Energy Storage Systems, Malta aims to meet its commitments to a clean energy transition while enhancing the stability and efficiency of its energy supply.

What is a battery energy storage system?

Battery energy storage systems allow power to be stored and then discharged. This is a sample photo provided by Interconnect Malta. A project to build two massive battery storage systems that can capture electricity generated from renewable energy sources is now open to bidders.

Where are battery energy storage systems located?

The battery energy storage systems (BESS) will be located in Marsa and Delimara, on Enemalta grounds in both localities. First announced in June 2023, the project is being led by Interconnect Malta, an Energy Ministry agency responsible for energy infrastructure projects.

What is interconnect Malta doing?

InterConnect Malta has launched tenders for two large-scale Battery Energy Storage Systems, aiming to enhance renewable energy integration and stabilize Malta's energy supply. Learn more about this significant step towards a sustainable energy future.

How much power will Marsa Power Station have?

The first system (BESS 1), rated at 20MWh (8MW), will be located in the underground tunnels of the former Marsa power station while the second system (BESS 2) shall have a rating 64MWh (32MW) and shall be located within the precincts of the Delimara power station.

What is Malta's Energy & Climate Strategy?

This project is in alignment with Malta's energy and climate strategies, as it emphasises the integration of energy emanating from renewable sources and the mitigation of energy curtailment, thus enhancing energy security and reducing carbon emissions.
