

## Kongres Container

# Manufacturers that produce a large number of solar panels

## Overview

---

According to Solarbe Global and InfoLink Consulting data, the Global Top 4 — Jinko Solar, LONGi, Trina Solar, and JA Solar — maintain almost half of the global market, with a 48.5% combined share. What are the top 20 solar panel manufacturers in the world?

Save my name, email, and website in this browser for the next time I comment. The top 20 solar panel manufacturers in the world include Sunpower, Hanwha Q Cells, and RECSolar due to their overall performance.

Who makes the best solar panels?

Last but not least on our list of the largest solar panel manufacturers is the Sharp Corporation, founded in 1912. Sharp is another Japanese solar panel manufacturer and one of the best solar panels manufacturers and electronics corporations in the world.

Who is the largest solar panel manufacturer in the world?

JinkoSolar is the largest solar panel manufacturer in the world. The Shanghai-based company shipped 47.2GWp of solar panels in 2024's first six months, more than any other firm. JinkoSolar has 14 factories in China, Malaysia, Vietnam, and the US, and 57,000 employees, with 1,500 working in the firm's eight research and development centres.

What percentage of solar panels are made in China?

China produces 86% of the world's solar panels each year, according to Germany's Fraunhofer Institute for Solar Energy Systems. In comparison, Europe and North America each produce around 2%. It therefore makes sense that eight of the world's nine largest solar manufacturers are based in China.

Where are solar panels made?

The Shanghai-based company has 14 factories in China, Malaysia, Vietnam, and the US, and 57,000 employees - of whom 1,500 work in the firm's eight

research and development centres. China produces 86% of the world's solar panels each year, according to Germany's Fraunhofer Institute for Solar Energy Systems.

Who makes the best solar panels in Japan?

Sharp is another Japanese solar panel manufacturer and one of the best solar panels manufacturers and electronics corporations in the world. Also, having started the development of solar cells in 1959, it is one of the oldest companies to invest in solar energy. It may not be a name as recognizable as Panasonic or Samsung.
