Micronesia Home Inverter Manufacturer

Overview

Who makes micro inverters?

Enphase, the pioneer of the micro inverter concept, is a globally leading manufacturer as well as supplier of micro inverters. They rank among TIER-1 companies. They are also known for revolutionizing power generation on a global scale. Mr. Raghu Belur and Mr. Martin Fornage established the brand jointly in 2006 in California (USA).

What kind of inverter does gosolar use?

GoSolar uses high efficiency low cost \$/watt micro-inverters by NEP™. Founded in 2010 in Silicon Valley California, NEP™ engineers and produces competitively priced high-quality micro inverters. In fact, the NEP™ micro inverter is the only certified and commercially available micro inverter in Japan.

What is the warranty on micro inverters?

Backed by a 10-year manufacturer's warranty, your micro inverters will provide years of efficient service. Our flat rack is made of high-quality extruded aluminum. All the peripheral components are made with similarly high-grade aluminum or stainless steel.
