# Myanmar Huijue Energy Storage System Demand

## Overview

---

What is Huijue's home energy storage solution?

Huijue Group's Home Energy Storage Solution integrates advanced lithium battery technology with solar systems. Ranging from 5kWh to 20kWh, it caters to households of varying sizes. It reduces electricity bills and serves as emergency backup power, providing a seamless, intelligent, and one-stop energy solution.

What is the energy demand supply situation in Myanmar?

The Myanmar energy demand supply situation indicates that power generation mix must shift to more coal and hydropower, continued use of biomass, natural gas consumption, and appropriate increase of renewable energy such as solar PV and wind power generation.

What is a Huijue system?

Ranging from 5kWh to 20kWh, it caters to households of varying sizes. It reduces electricity bills and serves as emergency backup power, providing a seamless, intelligent, and one-stop energy solution. Compact and reliable Huijue systems provide energy independence and efficiency for modern homes.

How is transport energy consumption projected in Myanmar?

Source: Author's calculations. In Myanmar, transport energy consumption is projected based on the energy requirements of major sectors (industry, transport, agriculture, and households). The choice of fuel type is determined by available supply, since energy demands must be met mainly by domestic sources.

What is Myanmar's power demand scenario in 2030?

The Myanmar Energy Master Plan, 2015 outlined installed capacities for three power demand scenarios in 2030 (Table 12.2). Scenario 3 is the power

resource balance, which requires an increased share of hydropower and natural gas supply for power generation. 2.3. Energy and Climate Change Environmental Policies.

Who is Huijue group?

Huijue Group offers industrial and commercial energy storage, PV-BESS -EV Charging, Off-grid / On-grid Microgrid, telecom site solutions, and home solar energy storage, ensuring reliability, efficiency, and eco-friendliness.
