Nanya Communication Base Station Battery Manufacturer

Overview

Is Nanya a sustainable company?

In 2023, Nanya was selected into the DJSI World Index for the third time and the Emerging Markets Index for the fifth time. Our scores in the S&P Global Corporate Sustainability Assessment (CSA) ranked first among memory companies, and was included in the 2023 S&P Global Sustainability Yearbook.

Does Nanya have a DRAM product portfolio?

Nanya has a complete DRAM product portfolio and continues to make inroads in advanced products and services. Our focus on innovation has resulted in the successful development of 10nm-class process technology, which will enable the next three generations of DRAM, including the DDR5 and LPDDR5 products.

How is Nanya achieving its environmental performance based on sbti-approved targets?

Regarding the environmental performance, Nanya endeavours to reduce the GHG emissions based on our SBTi-approved targets. The Company implemented water conservation measures and wastewater recycling system, and adopted the Alliance for Water Stewardship (AWS) standards in 2023 to optimise water management.

What is Nanya DRAM?

Create a smart connected home covering a wide variety of consumer electronics with standard and low power DRAM densities ranging from 512Mb to 8Gb. Nanya DRAM enables employees to work smart and maximize efficiency in the office place - both at the desk and behind the scenes.

How much will Nanya invest in a new Fab?

In addition to current facilities upgrades, Nanya plans to invest approximately NT\$ 300 billion for a new fab with a two-story clean room. The construction

has started in 2022, and once completed, future generations of our 10nm-class technologies and products will be implemented and produced.
