Nauru solar Energy Storage Lithium Battery Company

Overview

Does Nauru have solar power?

Due to its equatorial location, Nauru has limited need for hot water, which has limited interest in solar applications. Currently, all energy on Nauru is provided from predominantly fossil fuels for electricity generation.

Why is there limited interest in solar applications on Nauru?

As all energy on Nauru is provided from predominantly fossil fuels (electricity generation), there has only been a limited interest shown in solar applications. Nauru being located nearly on the equator limits the need for hot water for domestic applications.

What is Nauru Utilities Corporation (NUC) project preparatory technical assistance?

The project will also support the institutional strengthening of Nauru Utilities Corporation (NUC). Project preparatory technical assistance was used to carry out project-enabling activities such as a Solar Power Expansion Plan for Nauru, project feasibility study, detailed design, and plant procurement contract bidding documents.
