New energy storage project in Saint Lucia

Overview

Saint Lucia is preparing to launch a call for proposals for a 10 MW solar project coupled with a 13 MW battery energy storage system. The project, which will be strategically located at the Hewanorra International Airport in Vieux Fort, is slated for tender in 2025.

Saint Lucia is preparing to launch a call for proposals for a 10 MW solar project coupled with a 13 MW battery energy storage system. The project, which will be strategically located at the Hewanorra International Airport in Vieux Fort, is slated for tender in 2025.

In a significant move toward energy independence and climate resilience, Saint Lucia is preparing to launch its second industrial-scale solar project—a 10 MW photovoltaic installation paired with a 26 MWh lithium-ion battery energy storage system (BESS). The project, set to be tendered later this year.

Electric utility company St Lucia Electricity Services is set to tender a 10 MW solar project with 13 MW battery energy storage later this year. St Lucia Electricity Services (LUCELEC) plans to tender a 10 MW solar plus storage project in St Lucia. According to an announcement released by the utility.

Electric utility company St Lucia Electricity Services is set to tender a 10 MW solar project with accompanying battery energy storage later this year. St Lucia Electricity Services (LUCELEC) is planning to tender a 10 MW solar project in Saint Lucia. According to a notice posted by the utility.

Saint Lucia is set to benefit from a multi-million dollar initiative aimed at enhancing energy efficiency and expanding the use of renewable energy. The World Bank's Board of Executive Directors has approved the Caribbean Efficient and Green Energy Buildings Project, a US\$131.87 million investment.

Saint Lucia is set to take a major leap in its renewable energy journey, planning to launch a tender in 2025 for a 10 MW solar project paired with a significant 13 MW of battery energy storage. This initiative is a cornerstone of the island's strategy to slash its reliance on volatile fossil fuel.

Saint Lucia Electricity Services (LUCELEC) plans to tender a 10 MW solar project with battery energy storage later this year. The project, which will be the island's second industrial-scale solar initiative, includes 10 MW of solar power and an energy storage system with 13 MW capacity using.
