New energy storage projects in Egypt

Overview

Recently, the Kom Ombo 500 MW PV Expansion and 300 MWh Energy Storage Project—Egypt’s largest standalone energy storage project, surveyed and designed by the Southwest Electric Power Design Institute Co., Ltd. of China Power Engineering Consulting Group—was put into commercial.

Recently, the Kom Ombo 500 MW PV Expansion and 300 MWh Energy Storage Project—Egypt’s largest standalone energy storage project, surveyed and designed by the Southwest Electric Power Design Institute Co., Ltd. of China Power Engineering Consulting Group—was put into commercial.

AMEA Power, one of the fastest-growing renewable energy companies, signs Power Purchase Agreements (PPAs) to develop largest solar PV in Africa and first utility-scale battery energy storage system in Egypt. After the successful development of the 500MW Abydos Solar PV Project, AMEA Power has been.

Oslo/Cairo, 05 May 2025: Scatec ASA has commenced construction of its 1.1 GW Obelisk solar and 100 MW/200 MWh battery storage project in Egypt. The energy will be sold under a USD-denominated 25-year Power Purchase Agreement (PPA) with the Egyptian Electricity Transmission Company (EETC), backed by.

Dubai-based developer Amea Power has agreed to build a 1 GW solar plant with a 600 MWh battery energy storage system (BESS) and an additional 300 MWh BESS. Meanwhile, Norwegian developer Scatec ASA has signed a 25-year power purchase agreement (PPA) for a 1 GW solar array and 100 MW/200 MWh BESS in.

Egypt’s government has signed contracts with developer AMEA Power for two large-scale battery energy storage projects, the country’s first. Dubai-headquartered AMEA Power announced yesterday (25 February) that it has signed government Capacity Purchase Agreements (CPAs) for the battery energy.

Mahmoud Esmat, Minister of Electricity and Renewable Energy, has met with Hussain Al Nowais, Chairperson of AMEA Power (part of the UAE’s AlNowais

Investments), at the Ministry of Electricity's headquarters in the New Administrative Capital to explore expanding renewable energy and battery-based.

AMEA Power has signed groundbreaking agreements to develop battery energy storage systems in Egypt. The company plans to build projects with a total capacity of 1,500MWh. These projects mark the first standalone battery energy storage systems in Egypt. They will enhance grid stability and increase.
