Norway solar panel flat installation price

Overview

The average market price of such panels ranges from NOK 40,000 to NOK 130,000 for a single-family house and also depends on the location in the country. How to find the best solar panel installers in Norway?

Check possible solutions with localmarket.no. Compare prices from local certified solar panel installers in Norway. We find the best and cheapest qualified installer in your area, while offering the best solar warranty on the market and the best deals with the highest quality. Switch to GREEN ENERGY with the best warranty on the market.

How do I install a solar system?

Select the desired building on which you want to have a solar system installed. Get a proposal for a suitable solar cell system based on the building's dimensions. Choose the roof type and draw in pipes, ventilation, snow traps and other obstacles on your roof. See your solar system in 3D.

Who is solar technologies Scandinavia?

Solar Technologies Scandinavia is one of Norway's leading suppliers in solar panels and battery storage. The company was founded by key personnel with extensive experience from the construction industry and as technical suppliers. We offer training at all levels of competence in assembly, engineering and all applicable regulations.

How can I design my own Solar System?

Look up the address for the installation and design your own solar system in our online drawing program. Receive a quote and order the solar system you have designed yourself, from a local company. We have a dealer network throughout Norway that installs solar systems where you live.
